

THE PURE PROMISE

- Arrive 15 minutes before scheduled start time wearing all required PPE (personal protection equipment).
- Review the provided tool list and arrive on-site, properly equipped.
- Thoroughly review the Scope of Work (SOW) and all supporting materials provided for the project. Any questions should be relayed to the Location Manager BEFORE the day of service.
- Be well-groomed and wear a collared shirt on all Pure Install jobs.
- Keep hygiene top of mind and do not emit any strong cologne, body, or cigarette smoke odor while on the job.
- Always act in a professional manner.
- Alcohol or drug use is strictly prohibited.
- Have ongoing, thorough communication with the Pure Install Location Manager before, during, and after the project.
- Submit an accurate invoice to your Pure Install Location Manager for work performed within 48 hours of completion of the job.
- Never use profanity or comments that might be interpreted as offensive on a job site.
- No cell phone use or music while on site unless for job related purposes.
- Contact Pure Install immediately with any changes to SOW, or problems on the job.
- Real-time communication is expected if issues arise.
- Proper clean-up of work area after project completion is required.
- Take multiple, in-focus photos before, during, and after services are provided. All damage should be documented and reported in real-time.
- The use of the Pure Install mobile app is required to confirm job was received, ETA, arrival, completion, and to upload photos and paperwork.

"Plan your work for today and every day, then work your plan."

-MARGARET THATCHER
